SUMMARY

Results-driven Full Stack Engineer with expertise in Full Stack Devepoment with JavaScript. Proven track record of collaborating in cross-functional teams to deliver user-friendly websites with captivating UI designs. Skilled in testing software for optimal performance and ensuring high-quality final products.

EXPERIENCE

Full Stack Engineer

March 5 March 2022 - Present, Uganda

- Collaborated with front-end and back-end developers to achieve project goals
- Collaborated in the development of a user-friendly website with React, Redux, and Material UI (MUI)
- Identified and troubleshooted bugs to ensure optimal software performance
- Contributed to delivering a polished final product through meticulous testing
- Engaged in full stack development to enhance functionality and user experience

EDUCATION

BSC in Applied Technology

Rexburg, Idaho • Brigham Young University • 2025

CERTIFICATES

Web and Computer Programming

Brigham Young University • August 2022

PROJECTS

FARM APPLICATION

Developed a React application that effectively handles comprehensive crop and sales management tasks within a farm setting. The application not only addresses the logistical aspects of farm operations but also allows user authentication in that a user can't post a sale or a crop without being authorised.
